

Note Sheet – 77

12.02.2026

Sub: Addendum for Recruitment – February 2026 – Reg.

This is to submit that the Institute is presently undertaking substantial electrical works on account of:

- Construction of new classrooms and laboratory facilities
- Installation of a solar power project
- Installation of textile laboratory instruments and machinery

In view of the increased technical requirements arising from the above activities, a proposal is placed to recruit an Electrical professional at the level of Assistant Engineer (Electrical & Solar Project).

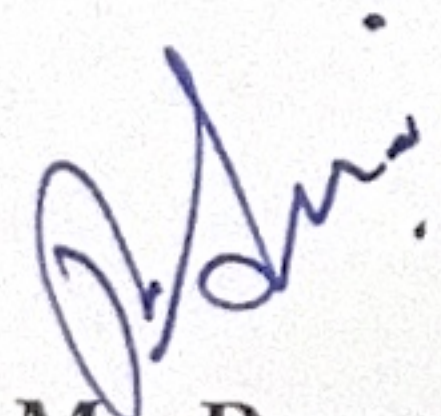

Accordingly, the eligibility criteria, number of posts required, and other relevant particulars for the said post have been placed at S. No. 212 for kind consideration.

It is further proposed to include the above post in the ongoing recruitment process currently in progress.

Additionally, it is proposed that the last date for submission of applications for all the advertised posts may be extended up to 16th February 2026.

Upon approval, the inclusion of the post of Assistant Engineer (Electrical & Solar Project) will be uploaded on the Institute's website as an addendum to the current recruitment advertisement.

Submitted for Director's approval.
